Be different in the city.

ECONOVA is a leading supplier of LPG/CNG components. We have aimed to provide quality components of LPG/CNG conversion kits to the world market. Having an experience over 15 years in the industry we have successfully achieved to supply the quality components at an economical price level.

We have all range of LPG/CNG Conversion kits, parts and Tanks for almost all types of vehicles. We are keen to provide

best Alternative Fuel Solutions at affordable level. With our experienced team in different regions around the globe we make sure we know the needs of different market and we always develop new products, ideas together with our partners around the world.

Our headquarter located in Munich/ Germany where is the heart of Automotive industry. We develop best fit conversion kits with our R&D in Germany and most of our production activities

will be held in Poland, Turkey. We are one of the few companies who can supply all needs of Conversion centers around the globe. Our range of products cover almost 95% of the world's total car population.

We aimed to be one of the top players in the market trusting our knowledge, experience and flexibility at work. We are young and ambitious team who target to deliver the best to its customers.

Eco- Smart LPG&CNG Components

Clean Fuel.

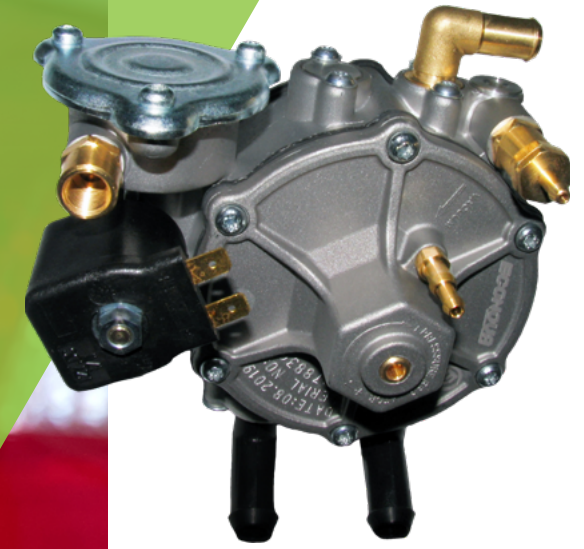

Lpg is by far the most widely available environmentally friendly alternative fuel. It is non-toxic and has no impact on soil, water and underground aquifers. It also helps to improve the quality of indoor and outdoor air, as it produces substantially less particulate matter, Nitrogen oxide, Carbon monoxide, Hydrocarbons and CO2 emissions than diesel, petrol, oil, wood and coal.

We Provider Cleaner Transportation

All Econova products are helping consumers around the world for protecting our environment, with lower CO2 Emission and less fuel bill our customers enjoy helping to the environment and saving money at the same time. Econova customers enjoy wide range of selection of LPG and CNG products that suits to almost 90% of the total Gasoline fueled vehicles around the world.

High tech clean energy solutions.

500+ Eco Friendly Best Products

20+ Countries around the world.

Thanks to our young ambitious professional team ECONOVA products expanding rapidly in the world, we are now available over 20 countries and we aim to establish a strong dealership network in all active LPG and CNG markets. Our aim

to be able to supply quality products at economical price to make sure our partners remain competitive wherever they are operating.

100% Tested Products

Econova makes sure we are providing the quality products to our partners around the world we want to be certain we have made 100% QC check and all products tested in accordance with ECE R European Regulations. We believe in long-term existence in the LPG and CNG markets and we do not tolerate quality while we are working on to supply economical products.

7/24 Technical Support

ECONOVA believes right training and technical support is essential for the success therefore we have local 5 regions to make faster and better technical support in 8 different languages to our partners in the globe. We have routine technical visits to our dealers and we keep informing our partners about new products and future plans of the company.

PRODUCTS

Eco-Smart Solutions for your Car

DIRECT SEQUENTIAL SYSTEMS

ECN.GDI500

4 CYLINDER

E-Smart Direct Injection LPG Conversion Kit

LPG / LPG SYSTEMS / DIRECT SEQUENTIAL SYSTEMS

Designed for all types of 3-4 Cylinder Direct Injection vehicles.

Very lightweight, shock resistance, waterproofs plastic housing.
 Intelligent with OBD option
 Auto calibration and auto map correction
 Gas injector heating and diagnostic
 Valve protection
 Real time diagnostic of components
 Best calibration result with OBD connection

SEQUENTIAL INJECTION SYSTEMS

ECN.G40032

4 CYLINDER

E-Smart 3-4 Cylinder LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed specially for mid-range cars, suitable for a vast variety of vehicles.

Lightweight, shock-resistant, plastic housing
 Many extra tuning options
 Auto Calibration
 Injector heating
 Diagnostic
 Waterproof
 32 pins
 Suitable for 2-3-4 Cylinders

ECN.G40048

4 CYLINDER

E-Smart 3 OBD 4 Cylinder LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed for all types of 2-3-4 Cylinder vehicles.

- Very lightweight, shock resistance, waterproofs plastic housing.
- Intelligent with OBD option
- Auto calibration and auto map correction
- Gas injector heating and diagnostic
- Valve protection
- Real time diagnostic of components
- Best calibration result with OBD connection

ECN.G40200

4 CYLINDER

Spark 2 4 Cylinder LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 4 Cylinder designed especially for 4 cyl. Engines with sequential fuel injection for car owners who are looking for economical version.

WHAT YOU GET?

- 24 pin LPG/CNG controller,
- Dedicated for 4 cylinder engines,
- Automatic auto-adaptation system (tune),
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Tight composite – aluminum housing,
- Very quick and easy installation

ECN.G60400

6 CYLINDER

E-Smart 3 6 Cylinder OBD II LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed for all types of 5-6 Cylinder vehicles.

- Very lightweight, shock resistance, waterproofs plastic housing.
- Intelligent with OBD option
- Auto calibration and auto map correction
- Gas injector heating and diagnostic
- Valve protection
- Real time diagnostic of components
- Best calibration result with OBD connection

ECN.G60200

6 CYLINDER

Spark 2 OBD II 6 Cylinder LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 OBD Designed for 5-8 Cylinder Vehicles, It gives the best performing output for your vehicle.

WHAT YOU GET?

- 56 pin LPG/CNG controller with integrated OBD (CAN and K-LINE),
- Dedicated for the most advanced 8 cylinder engines,
- Automatic auto-adaptation system (Auto Tuning) two independent engine banks,
- Expanded OBD scanner with automatic error clearance,
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Integrated fuel pressure and fuel level emulator,
- Possibility to connect 2 voltage lambda probes or 1 UEGO,
- Tight aluminum housing

ECN.G80400

8 CYLINDER

E-Smart 3 8 Cylinder OBD II LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed for all types of 8 Cylinder vehicles.

- Very lightweight, shock resistance, waterproofs plastic housing.
- Intelligent with OBD option
- Auto calibration and auto map correction
- Gas injector heating and diagnostic
- Valve protection
- Real time diagnostic of components
- Best calibration result with OBD connection

ECN.G80200

8 CYLINDER

Spark 2 OBD II 8 Cylinder LPG Conversion Kit

LPG / LPG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 OBD Designed for 5-8 Cylinder Vehicles, It gives the best performing output for your vehicle.

WHAT YOU GET?

- 56 pin LPG/CNG controller with integrated OBD (CAN and K-LINE),
- Dedicated for the most advanced 8 cylinder engines,
- Automatic auto-adaptation system (Auto Tuning) two independent engine banks,
- Expanded OBD scanner with automatic error clearance,
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Integrated fuel pressure and fuel level emulator,
- Possibility to connect 2 voltage lambda probes or 1 UEGO,
- Tight aluminum housing

ECN.CCT001

Carburattor Kit

LPG / LPG SYSTEMS / TRADITIONAL SYSTEMS

This kit is designed for older vehicles with carburetor and for customers who are looking for a very economical conversion kit.

This kit is designed for older vehicles with carburetor and for customers who are looking for a very economical conversion kit.

ECN.CIT001

Singe Injection Kit

LPG / LPG SYSTEMS / SINGLE INJECTION SYSTEMS

This kit is designed for older vehicles and for customers who are looking for a very economical conversion kit.

This kit is designed for older vehicles and for customers who are looking for a very economical conversion kit.

DIRECT SEQUENTIAL SYSTEMS

ECN.MDI500

4 CYLINDER

E-Smart Direct Injection CNG Conversion Kit

CNG / CNG SYSTEMS / DIRECT SEQUENTIAL SYSTEMS

Designed for all types of 3-4 Cylinder Direct Injection vehicles.

Very lightweight, shock resistance, waterproofs plastic housing.

Intelligent with OBD option

Auto calibration and auto map correction

Gas injector heating and diagnostic

Valve protection

Real time diagnostic of components

Best calibration result with OBD connection

ECN.M40032

4 CYLINDER

E-Smart 3-4 Cylinder CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed specially for mid-range cars, suitable for a vast variety of vehicles.

- Lightweight, shock-resistant, plastic housing
- Many extra tuning options
- Auto Calibration
- Injector heating
- Diagnostic
- Waterproof
- 32 pins
- Suitable for 2-3-4 Cylinders

ECN.M40048

4 CYLINDER

E-Smart 3 OBD 4 Cylinder CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed for all types of 2-3-4 Cylinder vehicles.

- Very lightweight, shock resistance, waterproofs plastic housing.
- Intelligent with OBD option
- Auto calibration and auto map correction
- Gas injector heating and diagnostic
- Valve protection
- Real time diagnostic of components
- Best calibration result with OBD connection

ECN.M40200

4 CYLINDER

Spark 2 4 Cylinder CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 4 Cylinder designed especially for 4 cyl. Engines with sequential fuel injection for car owners who are looking for economical version.

WHAT YOU GET?

- 24 pin LPG/CNG controller,
- Dedicated for 4 cylinder engines,
- Automatic auto-adaptation system (tune),
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Tight composite – aluminum housing,
- Very quick and easy installation

ECN.M4020B

4 CYLINDER

Spark 2 OBD II 4 Cylinder CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 OBD is designed especially for 4 cyl. Engines with sequential fuel injection for car owners who are looking for economical version.

WHAT YOU GET?

- 24 pin LPG/CNG controller,
- Dedicated for 4 cylinder engines,
- Automatic auto-adaptation system (tune),
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Tight composite – aluminum housing,
- Very quick and easy installation

ECN.M60400

6 CYLINDER

E-Smart 3 6 Cylinder OBD II CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed for all types of 5-6 Cylinder vehicles.

- Very lightweight, shock resistance, waterproofs plastic housing.
- Intelligent with OBD option
- Auto calibration and auto map correction
- Gas injector heating and diagnostic
- Valve protection
- Real time diagnostic of components
- Best calibration result with OBD connection

ECN.M60200

6 CYLINDER

Spark 2 OBD II 6 Cylinder CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 OBD Designed for 5-8 Cylinder Vehicles, It gives the best performing output for your vehicle.

WHAT YOU GET?

- 56 pin LPG/CNG controller with integrated OBD (CAN and K-LINE),
- Dedicated for the most advanced 8 cylinder engines,
- Automatic auto-adaptation system (Auto Tuning) two independent engine banks,
- Expanded OBD scanner with automatic error clearance,
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Integrated fuel pressure and fuel level emulator,
- Possibility to connect 2 voltage lambda probes or 1 UEGO,
- Tight aluminum housing

ECN.M80400

8 CYLINDER

E-Smart 3 8 Cylinder OBD II CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

Designed for all types of 8 Cylinder vehicles.

- Very lightweight, shock resistance, waterproofs plastic housing.
- Intelligent with OBD option
- Auto calibration and auto map correction
- Gas injector heating and diagnostic
- Valve protection
- Real time diagnostic of components
- Best calibration result with OBD connection

ECN.M80200

8 CYLINDER

Spark 2 OBD II 8 Cylinder CNG Conversion Kit

CNG / CNG SYSTEMS / SEQUENTIAL INJECTION SYSTEMS

SPARK 2 OBD Designed for 5-8 Cylinder Vehicles, It gives the best performing output for your vehicle.

WHAT YOU GET?

- 56 pin LPG/CNG controller with integrated OBD (CAN and K-LINE),
- Dedicated for the most advanced 8 cylinder engines,
- Automatic auto-adaptation system (Auto Tuning) two independent engine banks,
- Expanded OBD scanner with automatic error clearance,
- It can be expanded by additional external equipment,
- Any-clone algorithm,
- Integrated fuel pressure and fuel level emulator,
- Possibility to connect 2 voltage lambda probes or 1 UEGO,
- Tight aluminum housing

ECN.CCT002

Carburattor Kit

CNG / CNG SYSTEMS / TRADITIONAL SYSTEMS

This kit is designed for older vehicles with carburetor and for customers who are looking for a very economical conversion kit.

This kit is designed for older vehicles with carburetor and for customers who are looking for a very economical conversion kit.

ECN.CIT002

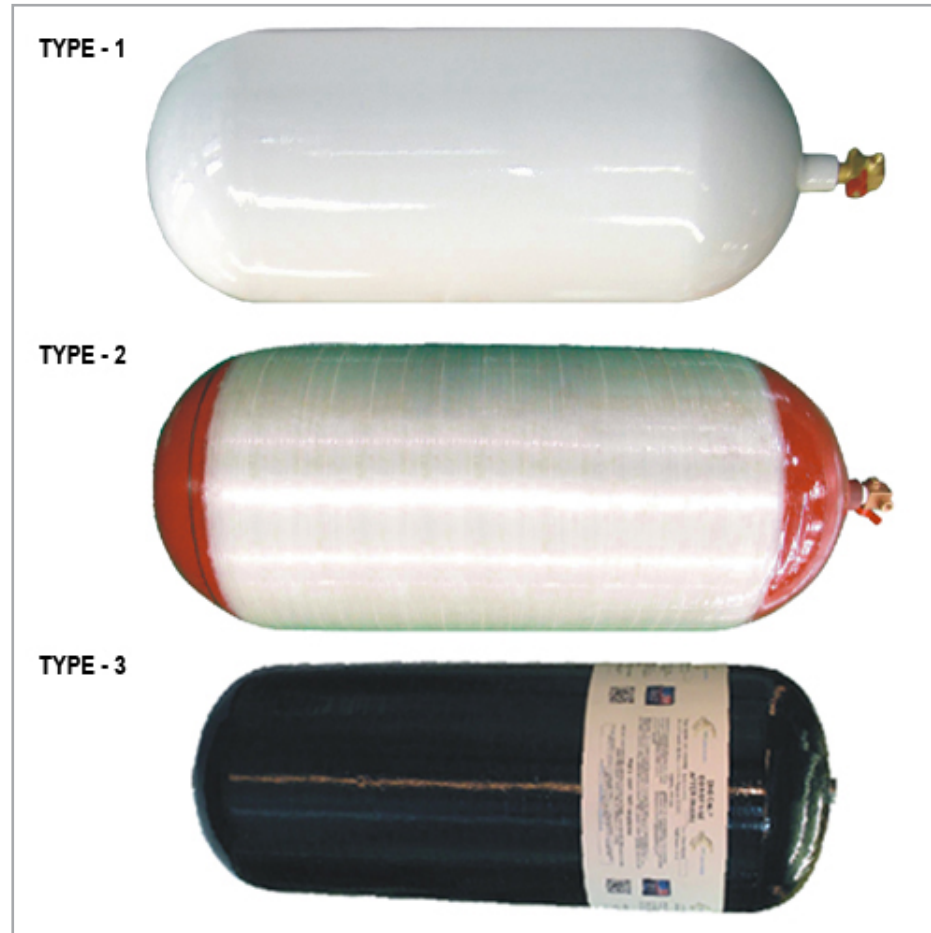

Singe Injection Kit

CNG / CNG SYSTEMS / SINGLE INJECTION SYSTEMS

This kit is designed for older vehicles and for customers who are looking for a very economical conversion kit.

This kit is designed for older vehicles and for customers who are looking for a very economical conversion kit.

CNG Tank Types

CNG / CNG TANKS

CNG TYPE-1: Cylinder Seamless Steel Cylinder

CNG TYPE-2: Cylinder Welded Cylinder, Composite Cylinder

CNG TYPE-3: Cylinder Seamless Steel Cylinder

Specifications

Material	34CrMo4 / 30CrMo
Outside Diameter	279mm / 325mm / 356mm / 406mm
Service Pressure	20MPA
Water Capacity	40L 45L 50L 60L 65L 70L 80L 90L 100L 110L 120L 130L etc.
